Mammography Tech-Full Time-RSCRR4446

Description
OBJECTIVE:
As a member of Mammography Team, use ionizing radiation to perform digital 3D mammography imaging in accordance with state, national and imaging services guidelines. Travel to clinics and other community-based sites in the Central Texas area to provide screening mammography services in a mobile environment. Work with leadership team and radiology facilities to incorporate technologies, practices and procedures to assure that standards are developed and followed. Meet and exceed patient expectations and adhere to established practices while assuring the best possible care for patients receiving services on the mobile unit.
RESPONSIBILITIES:

Perform radiologic testing specific to mammography on a mobile unit to provide high-quality images to radiologists and physicians for interpretation. Observe protocols and evaluate images for diagnostic quality.
Travel on mobile unit to scheduled sites for single-day events across Central Texas.
Assist in set-up, operation, loading, and unloading of equipment and prepare mobile unit for use.
Maintain competency in mammography and radiologic technology procedures and protocols. Perform quality control procedures and implement corrective action when appropriate. Complete documentation as indicated in regulatory guidelines. Monitor protocols and recommend changes to leadership team as needed.
