Reliable Staffing is seeking Civil Engineer

Typical Assignment: Roadway, Drainage and Utility Design for Public and Private Sector Projects

Salary: Highly Competitive

MINIMUM QUALIFICATIONS: Degree Required: BS Civil Engineering

Professional Registration Required: Texas Professional Engineer

Plans and conducts work requiring judgment in the independent evaluation, selection and substantial adaptation and modification of standard techniques procedures and criteria.

Independently performs most assignments with instructions as to the general results expected.

Plans, schedules, conducts or coordinates detailed phases of the professional work in a part of a major project or in or in a total project of moderate scope.

JOB REQUIREMENTS

Must be proficient in MicroStation or Open Roads and have TxDOT pre-certifications.

Assist in client contact and communication pertaining to specific projects.

Prepare and monitor project budgets with overall responsibility for the profitability of any project assigned.

Supervise and monitor client relationship strategies.

Assist in the development of probable construction cost estimates for projects within the department.

Attend client meetings (day or evening).

Assist in the analysis of reports, maps, drawings, tests, and aerial photographs to plan and design projects.

Prepare design computations and quantity estimates.

Perform design of portions of non-routine projects or entire routine projects under the direction of the project engineer.

Assist in the preparation of reports, specifications, plans, construction schedules, and permits for projects.

Instruct draftspersons/technicians to reduce design to final drawings.

Proficiency in the use of Microstation, Geopak, and other Specific programs (for TxDOT, City of San Antonio, TCEQ, etc.) and uses manuals, specifications, etc. for these entities a plus.
