Machine Operator-Full Time-RSCSE4138

Description

Reliable Staffing Seguin is now hiring for three shifts. Willing to work a 2-2-3 schedule with planned day/night rotation. Willing to work 12 hour shifts. Willing to lift 30 pounds routinely. Basic understanding of machine operations and adjustments. Willing to handle job stress and interact with others in the workplace. Must have regular, reliable attendance and willing to work outside the regular schedule as required. Perform routine operations required to set up, operate and adjust multiple polyethylene blown film extrusion lines with conveying and winding equipment to produce integral zipper plastic tubing.

Work from prescribed production goals and standards, schedules, manuals, detailed specifications, consultations with bag department, shift leadership, maintenance, purchasing and others.

Ensure the availability of raw materials and other requirements and requisition needed items.

Assist in the selection and training of new team operators.
Relieve team members during lunches and breaks and provide technical assistance to others as needed.
Work with shift supervisor and team members to establish team production, scrap and quality goals and ensure completion.
Perform simple calculations for daily production totals and quality results.
Maintain necessary production, quality and equipment records.
Ensure quality of product and conformance to extremely close tolerances by auditing various quality tests using a variety of electronic machines and visual inspections.
Evaluate extent of deviation from specifications and assist in making decisions to perform correct machine adjustments or shut down line and scrap defective product.
Troubleshoot difficulties in all areas, perform minor mechanical repairs and adjustments and report mechanical or electrical problems to the maintenance department.
Perform other duties as requested by management.
