Repair Developmental Engineer- RSCSAD3078

Description

Reliable Staffing San Antonio is seeking a Repair Development Engineer. Who is responsible for the development and implementation of new repairs and new components at the company Services, Inc. (CCS), including the creation and documentation of all required processes and procedures used to disassemble, assemble, inspect, repair, test and manufacture the affected components. Work safely following all health, safety and environmental rules and policies. Demonstrate high ethical standards and integrity as set forth in the company's Code of Business Conduct and our Principles of Business. Conduct, Policies and Procedures. With a positive attitude, demonstrate the ability to effectively participate in a team environment that promotes the company's goals and objectives. Apply common sense understanding and carrying out instructions delivered in written, oral, or diagram form. Ability to solve problems using appropriate critical thinking skills. Ability to read and interpret documents such as safety rules, operating and maintenance instructions, and procedure manuals. Ability to read, write, speak, and effectively communicate in English. Continually look for ways to increase efficiency and productivity while maintaining the required level of quality. Support CCSs Business Development Group with technical communication required between CCS and its customers. Develop technical relationships with CCSs customers so as to a) identify additional business opportunities for CCS and b) support the resolution of any technical conflicts that may arise during contract / purchase order execution; plan and coordinate customer visits from a technical support standpoint as required to do so. Review technical information as required in support of new repair development and implementation projects. Review customer purchase orders, contracts and change requests and ensure that the necessary criteria and provisions are communicated to and included in CCSs new repair development and implementation plans. Develop Repair Justifications and Quote forms (Form ENG023) in support of new repair development and implementation projects.
